Unit 2 Winds of change
Lesson :Dreams realised

1.During his visit to England Gandhiji stressed the importance of non violence in many of his speeches. Prepare the likely speech

Good morning my dear friends,

It's with great pleasure that I am standing before you .Let me take this opportunity to thank you all who supported me in my mission.

Whenever I mention the word non violence people ask about the value of it in Indian freedom struggle. I strongly believe that it is not the weapon of the weak. Its strength is not muscular ,but that of mind. A strong mind can achieve anything .It rejects violence as a solution to all problems. Non-violence does not mean weakness. It requires courage, strength, and determination. It means being willing to suffer for your cause. Killing is an act of bravery,but to stand face to face with an enemy , suffering all the blows without any protest is a greater act . So we are going ahead with a strong belief in the power of non violence. Finally we will win.

Let us embrace non-violence in our lives. Let us work together to create a more just and peaceful world.

Thank you.

2 Gandhiji met Chaplin during his visits to England. Prepare a conversation between them

Chaplin: Good morning sir ,I was eagerly waiting for this meeting

Gandhiji :Good morning dear Chaplin. I have heard about you from my friends

Chaplin. : I always wanted to ask you about your spinning wheel. Why are you against machinery?

Gandhiji : This question is very interesting. The spinning wheel is our first step to become independence

Chaplin : But how?

Gandhiji : we have many people who cannot find work. Machines are replacing them.

Chaplin :But what about progress? Surely machines can make our lives easier.

Gandhiji : Yes I agree . But it may lead to unemployment

Chaplin : So do you want to make every Indian self reliant?

Gandhiji : Definitely. In cloth and food every nation should be self contained.

Chaplin : I appreciate you and hope your dream may come true.

Gandhiji:Thank you .

3 Imagine you are a woman freedom fighter. Prepare a write up on the hardships faced by you

Gandhiji's call to the women of India brought me out of the four walls of my home. The journey to freedom was not very easy for a woman freedom fighter like me. Many of us were out of our house for the first time to participate in protests. Some of us were not educated ,we had no idea about the British laws. All we knew was that we were denied freedom and we united for our rights. We had to bear lathi blows. They put us into prison and beat cruelly. They did not spare our families. we lost our children in the battles.

We dreamt of a day when people could live without fear, when we could make our own choices. Some of us couldn't get even the support of families. But we did not give up. The earnest wish to be independent gave us strength to go on .So hundreds of women sacrificed their lives to free their mother land. There are many unknown women fighters too whose selfless service will be remembered forever

4 . Imagine Chaplin wrote a letter to his friend about his meeting with Gandhiji. Prepare the likely letter.

My dear John,

How are you? It has been months since we met . I am writing this letter to tell you about an interesting meeting with our dear Gandhiji.

As you know,Gandhiji has been visiting England for many days. I was eagerly waiting for a meeting with him . But when he came I was really surprised to see a humble and simple man. His calmness attracted me the most. I had heard that he was against machinery. When I asked him my doubt he told me that he wanted to fight unemployment by opposing the use of machinery. The spinning wheel which he used was aiming at making the peasants self sufficient. How delightful he was when he talked to me about his mission. He made it clear that in cloth and food every nation should be self contained.

I was really impressed at his great ideals. I am sure everyone who meets him has something to learn from him . I hope that his dream may be fulfilled soon. There are meetings going on and you may also get a chance to listen to him . Let us plan to go together to see such an influential figure soon

Yours friendly

Chaplin

4 Gandhiji was received with great pleasure all over England . Prepare some questions to interview him

- *What inspired you to adopt non-violence as a primary tool?*
- *How do you relate education and non violence?*
- *Why do you support the use of spinning wheel among peasants?*
- *Why do you think we should be self contained in food and clothes?*
- *What according to you gave strength to the women freedom fighters to come out of their homes to the forefront?*
- *What is your dream of independence?*

5. Chaplin was greatly impressed by the pleasant attitude and strong ideals of Gandhiji. What would be his thoughts?

Oh a great day indeed! Today I got a golden chance to meet Gandhi. Actually I was eager to see the man who has been inspiring millions with his thoughts. What a simple man he is! How delightfully he answered my questions. All my doubts about his denial of machinery were cleared. What a far fetched plan he has ! Can anyone deny that the great power of Britain is going to fall before him? No. The ultimate victory will be his because he has full faith in himself. Now I am convinced of the strength of our mind which can overcome all difficulties . The respect and joy I see on the face of all people here show how much they believe him. Wish all his dreams come true.
