Q NO	ANSWERS	MARK
1	3. Both A and B are correct	1
2	III. A – 4, B – 3, C – 2, D - 1	1
3	This place is 7000 feet above sea level and has lower oxygen Tevels. This condition increases the aerobic capacity of the natives there. Their food habits and activities such as hill climbing have contributed to their excellence in long distance running. Nature often shapes athletes.	2
4	• Uthritathi Vallamkali - Aranmula • Nehru Trophy Boat Race - Alappuzha • Moolam boat Race - Champakulam • Kallada Boat Race - Kollam • Sree Narayana Guru Jayanti Vallamkali- Kumarakam • Payipad Boat Race - Haripad • Nerettupuram Pampa Water Festival - Nerettupuram • President's Trophy Boat Race - Ashtamudi Kayal Kollam	2
5	Sports culture refers to the values, customs, and practices associated with physical activity and sports. It involves everything from playing, watching, organising, and governing sports. It also involves the way sports and physical activities are presented through media. Sports culture refers to behaving in accordance with social values such as behaving ethically and respecting the culture of other teams and players. Sports culture influences the progress of a society deeply.	2
6	• Vertebral column and connected muscles become flexible and strong. • Flexibility of hip joint increases. • Calf and hamstring muscles get a good stretch. • Improves digestion • Internal organs get nourished by the increased flow of blood in the upper extremities. This asana improves metabolism.	2
7-A	helmets, jackets and glasses,The oar used to propel the boat has blades on both the sides.	2

7-B	The sand on the beach is used for resistance training in different sport events. Beach sports are more safe and entertaining, as one can jump and dive without the fear of injury.	**2**
8-A	Mountain biking is a sport that involves riding a bicycle over rough terrain, usually using specially designed mountain bikes. They are similar in appearance to other bikes, but differ from regular bicycles in terms of suspension, such as air or coil springs, shock absorbers, larger and wider wheels and tires, stronger frame materials, and mechanical or hydraulic disc brakes. This feature helps in overcoming difficult trails and mountains.	**3**
8-B	Hang gliding is a sport that originated in Germany. The glider is made of sailcloth, similar to that used on sailing ships, on a sturdy aluminum frame. Hang gliding begins by jumping from high mountains. It is considered an adventure sport.	**3**
